

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PHILOSOPHICAL TRANSACTIONS

Is humbly Dedicated

By *Hans Sloane*, S. R. Secr:

Beginning the Nineteenth Volume.

PHILOSOPHICAL TRANSACTIONS.

For the Months of January and February. 1694.

The CONTENTS.

- I. **A** Discourse concerning the Method of Approximation in the Extraction of Surd Roots. By J. Wallis, S. T. D. and Savilian Professor of Geometry at Oxford.
- II. A Discourse concerning a Method of Discovering the true Moment of the Sun's Ingress into the Tropical Signs. By E. Halley.
- III. An Account of the probable Causes of the Pain in Rheumatisms; as also of the Cure of a total Suppression of Urine, not caused by a Stone, by the use of Acids. By Dr. Edw. Baynard.
- IV. An Extract of a Letter from Bernard Connor, M. D. to Sir Charles Walgrave; giving an Account of an Extraordinary Humane Skeleton, &c.
- V. Mr. Zachary Mayne's Letter, 1694. Concerning a Spout of Water that happened at Topsham on the River between the Sea and Exeter.
- An Account of a Book. I. *The Anatomy of the Brain; containing its Mechanism and Physiology, together with some new Discoveries and Corrections of Ancient and Modern Authors upon that Subject.* By Henry Ridly, Col. Med. Lond. Soc.

PHILOSOPHICAL TRANSACTIONS.

For the Months of March, April, and May. 1695.

The CONTENTS.

I. **A**N Account of the Burning Mountain in the Isle of Ternata, taken upon View thereof, as it was sent to the Right Worshipful Nicholas Witsen, Burgermaster of Amsterdam. II. A Relation of the Mischief befallen the Inhabitants of the Isle of Socrea, near the Molucco's, by Subterraneous Fire: Both communicated by the said Mr. Witsen to Dr. Martin Lister, Fellow of the Royal Society. III. Specimina quædam illustria Doctrinæ Fluxionum, five exempla quibus Methodi istius Usus & præstantia in solvendis Problematis Geometricis elucidatur, ex Epistola D. Ab. de Moivre desumpta. IV. A most compendious and facile Method for Constructing the Logarithms, exemplified and demonstrated from the Nature of Numbers, without any regard to the Hyperbola; with a speedy Method for finding the Number from the Logarithm given; by E. Halley. V. A Proposition of General Use in the Art of Gunnery, shewing the Rule of Laying a Mortar to pass, in order to strike any Object above or below the Horizon. By E. Halley. VI. An Account of BOOKS. 1. The Mathematical Works of Dr. John Wallis, Savilian Professor of Geometry in the University of Oxford, and Fellow of the Royal Society. 2. Tractatus de Salis Cathartici amari in aquis Ebesnæmensibus & hujusmodi aliis contenti Naturâ & usu. Aut. Nebemia Grew, M.D. Utriusque Reg. Soc. Soc.

PHILOSOPHICAL TRANSACTIONS.

For the Month of October, 1695.

The CONTENTS.

- I. **A** *Relation of one Hannah Taylor, a very Extraordinary Child of about Six Years of Age, who in Face, &c. was as large as a full grown Woman; and of what appeared at the Dissection of her Body: By Dr. Hen. Sampson, Fellow of the College of Physicians, London.*
- II. *A Relation of a Voyage from Aleppo to Palmyra in Syria; sent by the Reverend Mr. William Halifax to Dr. Edward Bernard, late Savilian Professor of Astronomy in Oxford, and by him communicated to Dr. Thomas Smith, R. Soc. Soc.*
- III. *An Extract of a Letter from the Reverend Dr. John Wallis, to Richard Waller, Esq; Secretary to the Royal Society, concerning the Spaces in the Cycloid which are perfectly Quadrable.*
- IV. *A Quadrature of a Portion of the Epicycloid. By Mr. John Caswel.*
- V. *Account of Books.*
- I. *An Essay towards a Natural History of the Earth and Terrestrial Bodies, especially Minerals; as also of the Sea, Rivers, and Springs. With an Account of the Universal Deluge, &c. By John Woodward, M. D. Professor of Physick in Gretham Coll. and R. S. Soc.*
2. *Archibaldi Pitcarnii, M. D. Dissertatio de Febribus, &c.*

PHILOSOPHICAL TRANSACTIONS.

For the Months of January and February, 1695.

The CONTENTS.

- I. **A**N Account of an Extraordinary Cure of an Horse that was Staked into his Stomach, communicated by the Reverend Dr. John Wallis, Reg. Soc. S. II. A Relation of a Person in Germany that swallowed a Knife, which lay in his Stomach a Year and seven Months, and then workt out at an Aposthem on his Breast: III. La vana Speculatione Disingannata dal Senso : Littera Risponsiva circa i corpi Marini, che petrificati si trovano in varii Luoghi Terrestri. Di Agostino Scilla Pittore & Academico della Fucina: With short Notes thereon, by a Fellow of the Royal Society: and a description of some of the accurate Figures in this Treatise, by another Member of the same. IV. An Easie Demonstration of the Analogy of the Logarithmick Tangents to the Meridian Line, or sum of the Secants, with various Methods for computing the same to the utmost exactness, by E. Halley. V. Account of Books. I. Catoptricæ & Dioptricæ Sphæricæ Elementa, Auctore Davide Gregorio M. D. Astronomiæ Professore Saviliano Oxoniæ, Reg. Soc. S. 8°. è Theatro Oxon. 1695. II. Dissertationes Medico-Physicæ de antris lethiferis; De Montis Visuvii incendio. De stupendo Ossium coalitu. De immani Hypogastrii Sarcomate. Authore Bernardo Connor, M. D. R. S. S. Oxon. è Theatro Sheldon. 1695. 8°.

PHILOSOPHICAL TRANSACTIONS.

For the Months of March, April, and May, 1696.

The CONTENTS.

- I. **A**N Account of an Extraordinary Meteor, or kind of Dew resembling Butter, that fell last Winter and Spring, in the Provinces of Munster and Leinster, in Ireland; being Extracts of two Letters, the one from Mr. Robert Vans to Mr. Henry Million, Dated November 15. 1695. The other from the Right Reverend St. George, Lord Bishop of Cloyne, to Sir Robert Southwell, U. P. R. S. Dated April 2. 1696. wherein mention is likewise made of a Person having a regular Epileptick Fit every Day at a certain Hour. II.
